

Parent Testimonial - March 2020

My child has been at Laxfield since the age of 4, and in that time he has achieved an independence which we never imagined possible, alongside making a steady academic progress in all subjects and forming relationships with his peers which we were told he may never have. All of this has been possible thanks to the constant support he has received by all the staff, both academically and pastorally - despite his difficulties, he (and by extension us as a family) has been nurtured and supported at every step. The inclusive and caring attitude which drives those at management level, informs the ethos of the whole school. This has been instrumental in providing a safe space for him to access mainstream education whilst giving his peers the opportunity to work alongside and celebrate a child whose abilities differ from theirs, but are no less worthwhile. As parents, we are enormously grateful for everything Laxfield school have done for our child, and for us - we consider ourselves hugely lucky to have been a part of this school community.
